

COVID-19 MASK SUPPLY LIST

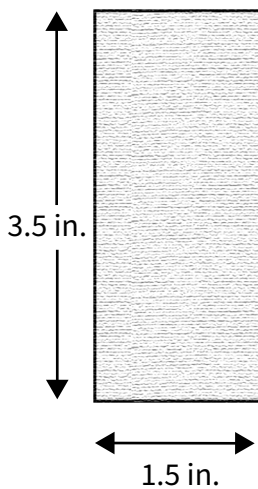

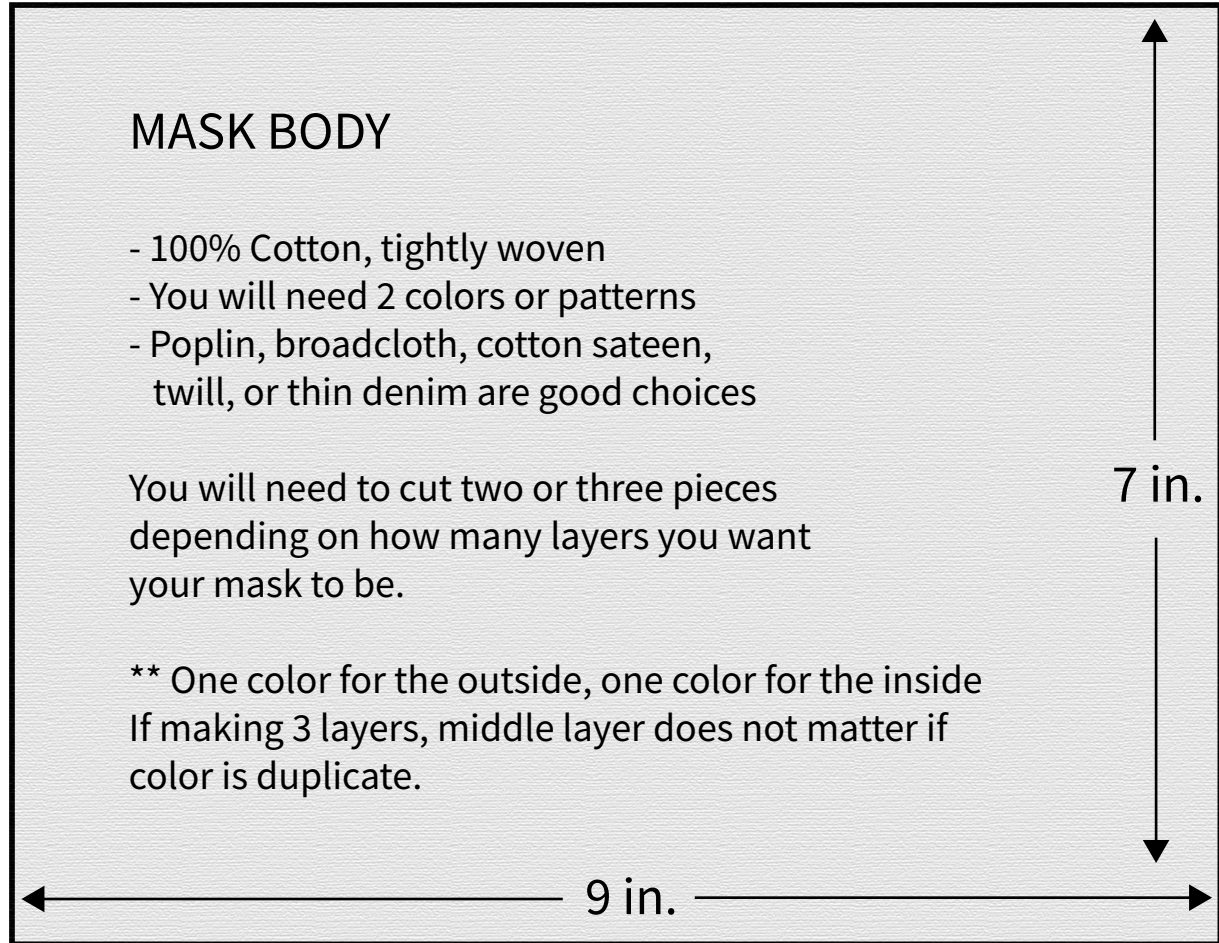

** Items not to scale!!*

MASK BODY

- 100% Cotton, tightly woven
- You will need 2 colors or patterns
- Poplin, broadcloth, cotton sateen, twill, or thin denim are good choices

You will need to cut two or three pieces depending on how many layers you want your mask to be.

** One color for the outside, one color for the inside
If making 3 layers, middle layer does not matter if color is duplicate.

CASING

Any durable 100% cotton will work

Qty: 2 per mask

OR

TWIST TIE

OR

PIPE CLEANER

12 Inches long

Fold in half

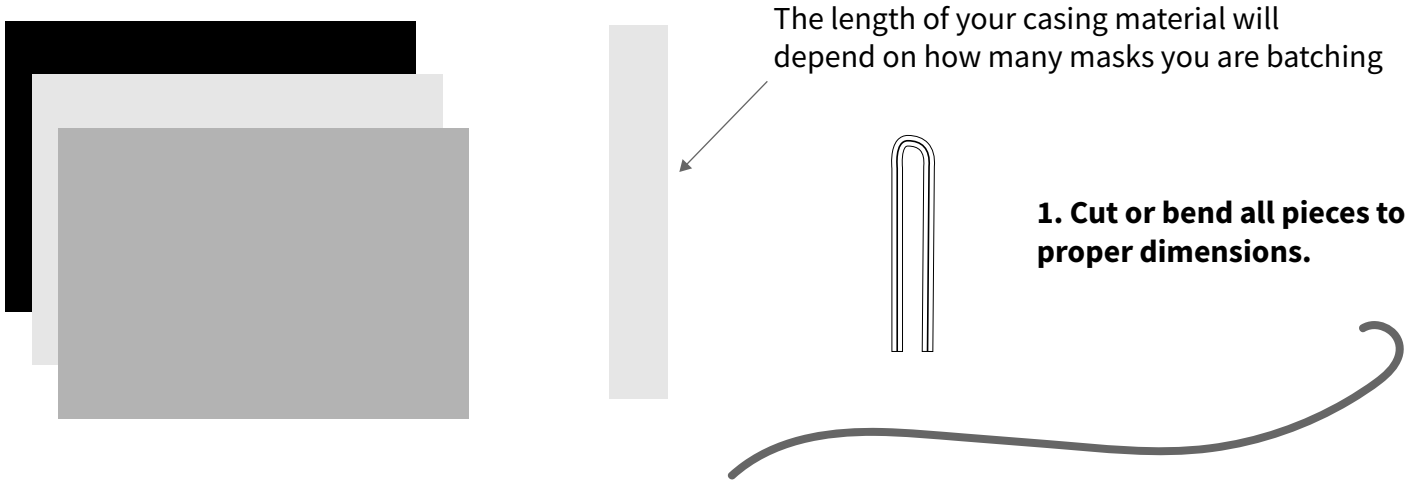

One per mask

30 inches of 1/8 inch elastic cord or 1/4 inch flat elastic

COVID-19 MASK INSTRUCTIONS

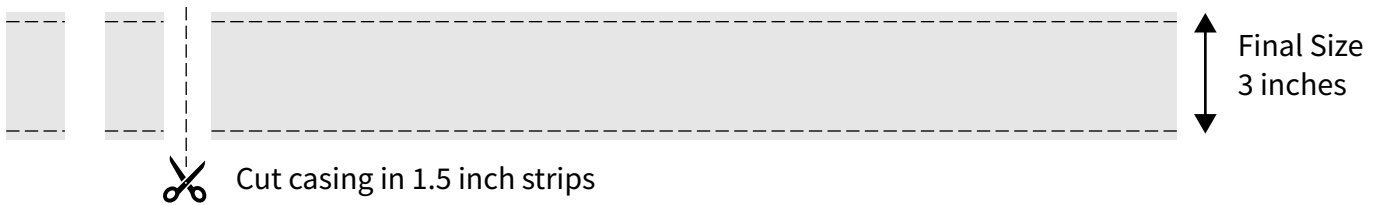

Video tutorial available: <https://youtu.be/fPVG4uGeFI>

2. Ensure your MASK BODY pieces are properly stacked so you have different colors/patterns on the outside and inside of the mask. Also be sure that your fabric has the surface print on the inside so after we sew our seams we can turn it right side out to show the full color sides.

* When sewing mask together all seams are 1/4 inch

3. Fold and press a 1/4 inch seam on narrow casing ends. Stitch down 1/8 inch from fold.

4. Follow the video instructions to complete the mask. Use the stitches and measurements below.
